Volume 2

A PRESCOTT VALLEY, INCORPORATED PUBLICATION

No. 8

## *Prescott Valley's New Home - A Beautiful Reality*

Illustration at left depicts the best reason we can think of to wake up in the morning and really enjoy the thought of going to work.

Our beautiful new offices at 300 East Camelback Road in Phoenix, Arizona provide an atmosphere of unparalleled beauty as a setting for the burgeoning growth and whirlwind of activity presently being enjoyed by our fine company.

Many out-of-town property owners have already visited and toured this beautiful structure as an interesting sidelight of their trip to Prescott Valley.

We are justifiably proud of our fine new address and continue to encourage you to visit us whenever you have occasion to be in town.

Our courteous personnel will be most happy to escort you through our new home and introduce you to the members of our staff.

The general progress and expansion of Prescott Valley, Incorporated have been truly tremendous in recent months.

With company principals who all represent exceptional ability in their respective fields, Prescott Valley has been blessed with the motivating factor necessary to fulfill its corporate goals.

Our company is young ... vigorous ... determined ... and ambitious. It is dedicated to the highest ethical standards, aimed at providing quality property for its quality residents.

It is our continuous aim to see that disillusioned, metropolitan-weary home owners will have a second, more pleasurable lease on life. To date, it's been an exciting challenge, and yet another good reason for going to work in the morning.

PV employees are hard-working, happy people who enjoy the collective part they play in ultimately making other people happy. Come meet them and see!

## *PV Hosts Boy's Club Rocket Launch*

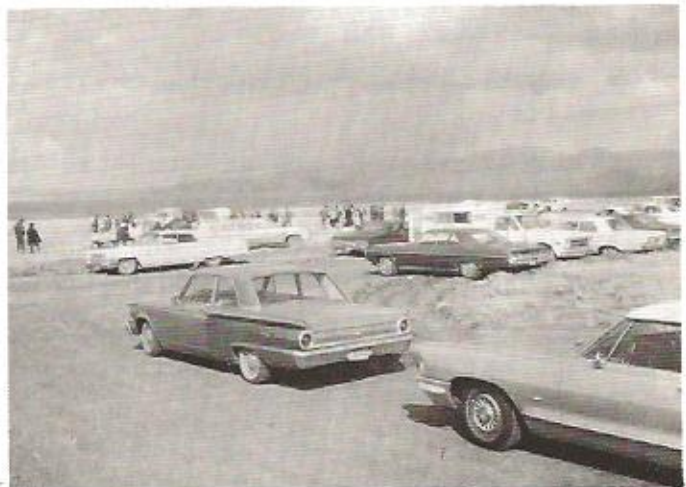

Five gallons of hot chocolate, a few steaming jugs of coffee, and 17 dozen donuts did their part in helping the Prescott Boy's Club ready their rockets for the launching pad.

Rocket fans from miles around were enthusiastic observers at this recent Model Rocket Launch at Prescott Valley.

This pictorial account of the day's activities clearly illustrates the air of tense excitement that set the predominant theme for the day.

It was indeed an honor and a pleasure to host this fine Boy's Club project, and we're certainly anticipating an encore performance.

PV provided a beautiful setting for this exciting event, and as usual, a smashing Good Time Was Had By All!

# Talent! Talent! Everywhere!!!

*Adult Division*

*Children's Division*

Several issues back, we advised you of a newly formed ceramics class at PV under the capable instruction of Mrs. Lon Stevenson, one of our very talented property owners. Mrs. Stevenson conducts three classes each Tuesday afternoon and evening for adults, and a Saturday morning session for PV's young folk.

The illustrated results speak for themselves. Top left photo shows Mrs. Lon Stevenson (left) proudly displaying lovely ceramic creations from the adult division while Lucille Felch (right) ceramic student and helper, looks on.

Photo at right shows the remarkable talent of PV's youngsters, amply represented at our Children's Table. It was cause for much conversation and open admiration on the part of all who attended a recent showing of these lovely figurines.

## *Attention All Fringe Benefit Readers!!!*

Our monthly publication, The Fringe Benefit, is now available to any of your friends who may have expressed an interest in receiving these issues.

This "newsy" little mailer has lots to say each month concerning the tremendous growth & progress of our lovely community. It makes for mighty interesting reading.

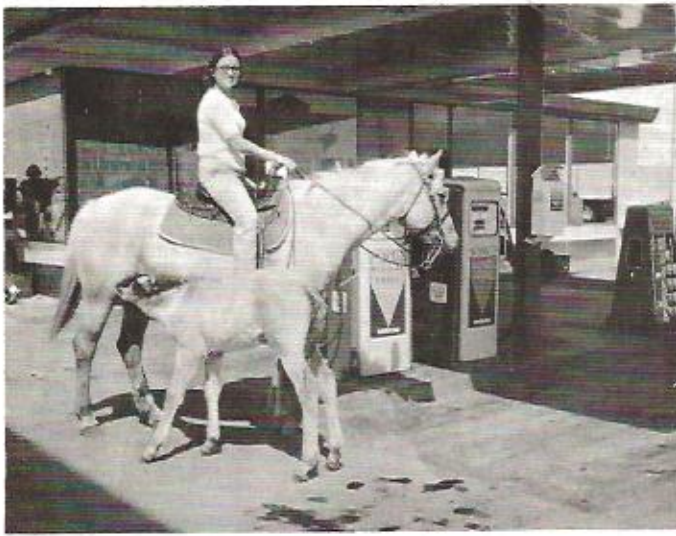

We hope you're all as proud of beautiful Prescott Valley as we are, and that you'll want to do your part in spreading the word about Our Place In the Sun.

Your friends will love you for it!

## *Cooking Class Comes To PV*

Another recent "happening" at our lovely Prescott Valley Community Building - Laurene Walton, Home Service Advisor for Arizona Public Service, instructing.

## Fill 'Er Up!!

PV gas station attendants were more than a little dumbfounded at a sequence of events that recently occurred involving the Dale Copelands' horse, Greta.

Daughter, Robyn Copeland, astride Greta, was equally surprised at Greta's offspring "Little Buck" who'd apparently heard that gas stations were where you go to "fill up" and so he did.

Being the good Mother that she is, Greta remained tolerant and showed her best side for the camera while our station crew debated whether they should add another tank to the ones marked Regular and Ethyl, and label it 'Pasteurized'.
